MEMORANDUM FOR: THE FILES

25X1A

SUBJECT: [] Case

25X1A

1. In the course of a previous meeting, [] made disparaging remarks about the option and hinted somewhat indirectly that he did not believe it was enforceable, and stated that the Government should beware of its position in view of the decision in the [] case. The option was discussed by the writer only with [] and while the content may have been (and most probably was) passed on to [] I doubt very much if the latter actually sighted the agreement itself.

2. The attached clipping regarding the [] case indicates certain facts that appear to distinguish it from our situation. However, the opinion might be obtained and reviewed for possible analogy.
